

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

August 8, 2008

Permit Number: OCRM-08-537-S
Permit ID: 63825

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Georgetown County
Attn: Ray C. Funnye
Po Box 421270
Georgetown SC 29442

LOCATION: On and adjacent to Litchfield Creek along Litchfield Drive, Georgetown, Georgetown County, South Carolina. TMS#: 04-0144--003-00-00, 04-0144-030-00-00.

WORK: The work, as proposed and shown on the attached drawings, consists of constructing a walkway supported by rock revetment. Specifically the applicant seeks to construct a 4' x 270' asphalt walkway with a section 5' wide for passing purposes, adjacent to the critical area. The walkway would be supported by a 6' wide by 270' long rock revetment at a slope of 2:1, placed along the erosional shoreline. The purpose of the proposed activity is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 23, 2008. For further information please contact the project manager for this activity, Christopher Stout at 843-238-4528.
